July 1, 2010 to June 30, 2011
A Message from the Dean

Among the basic philosophical tenets underlying the mission of the College of Education at San Diego State University are

- The belief that thoughtful scholarship is an efficient method for identifying effective practice which can be implemented to improve the quality of life in our community, and

- A commitment to improving the field of practice through the application of knowledge and use of strategic partnerships to facilitate positive change.

One measure of the College's adherence to these tenets is the record of accomplishments of its faculty in writing and research.

This report presents information about the scholarship of faculty members in the College of Education during the 2010-11 academic year. It presents the books, chapters, and articles in refereed journals and proceedings that appeared in print during this time period. Included are 163 publications representing the work of 49 faculty members. Book reviews, conference papers, technical reports, and articles in nonrefereed periodicals are not included.
